911 GT3
Price list

Congratulations.

You are now one step closer to owning your new 911 GT3 RS or 911 GT3.

You've been through the catalogue, you've seen the car, you may even have been for a test drive. But before you can finally make it yours, there is one more step to go: choosing your colour and equipment options. This price list is designed to guide you through that process and help you create your perfect Porsche.

Overleaf, you will find a fold-out illustration showing all the interior features in the 911 GT3 models. Each of these features has an individual code number which is used to identify it in the product descriptions. By referring back to the illustration, you can get a better idea of all that is included in each package.

At the back of the price list is another fold-out page where you can make a note of your options before finally placing your order.

For more information on equipment options and the Tequipment range of genuine Porsche accessories, please consult your Porsche Centre or call the Porsche Information Centre on 08457 911 911 or visit www.porsche.co.uk

This price list is valid only when options are ordered at the same time as your Porsche.

The prices stated do not apply for options ordered after your car has entered production.

All prices are recommended retail prices including VAT, but excluding delivery, and are effective from 1 August 2006.

Porsche reserves the right to alter specifications, delivery package, lead times and other product information without prior notice. Colours and materials may differ from those illustrated. Errors and omissions excepted.

For more information on availability and exact equipment specifications, please consult your Porsche Centre.

Porsche, 911, the Porsche Crest, Carrera, Boxster, PCCB, PCM, PSM, Tequipment and Tiptronic are registered trademarks of Dr. Ing. h.c. F. Porsche AG.

Porsche recycling

At Porsche, our philosophy demands uncompromising standards in every field of activity. A prime example is environmental protection and our systematic approach to recycling. All new Porsche vehicles are not only fully compliant with existing regulations, they are already prepared for future legislation. As a result, each car – and each of its components – is ready for the demands of recycling. With each new generation, we continue to exceed all statutory requirements worldwide.

When developing a new car, we explore every opportunity to conserve natural resources and protect the wider environment. Each new model is built from modular components – enabling easy dismantling – and easily recyclable materials. To facilitate recycling, all materials are clearly labelled for subsequent identification and sorting. Other improvements include a reduction in the range of plastics used. Priority is given to recycled plastics wherever they meet our exacting technical requirements.

To make the most of these measures, we have also improved the recycling process itself. In the unlikely event that dismantling is required, only certified partners are permitted to carry out this work, thereby ensuring the safe disposal of fluids and pollutants.

Guidelines are provided to ensure proper dismantling and draining of fluids in compliance with the EU directive on end-of-life vehicles. For Porsche, the scope of vehicle recycling has long exceeded metals alone. Plastics, lubricants and other fluids are increasingly salvageable too.

Thanks to fill-for-life fluids and longer service intervals, this comprehensive strategy has an equally positive impact on the overall cost of ownership.

Optional equipment

Factory-fitted personalisation options

The 911 GT3 models are among the best-equipped sportscars on the road. As you would expect, they also offer exceptional scope for personalisation. To help you create your perfect Porsche, we've prepared a wide range of styling and technical enhancements. With them, you can make your Porsche even more unique, even more dynamic and even more of a pleasure to drive.

Interior trim options are available in a range of quality materials, including leather, carbon fibre and stainless steel.

To find out more about factory-fitted personalisation options, please consult your Porsche Centre.

Porsche Exclusive

Porsche Exclusive complements our factory-fitted options to bring you the ultimate in personalisation. With it, you can turn your new 911 GT3 or 911 GT3 RS into a car that is literally like no other on the road.

At Porsche Exclusive, we combine uncompromising attention to detail with the highest standards of hand-craftsmanship.

With the enormous range of possibilities on offer, you have a unique opportunity to create a Porsche with your own personal specification.

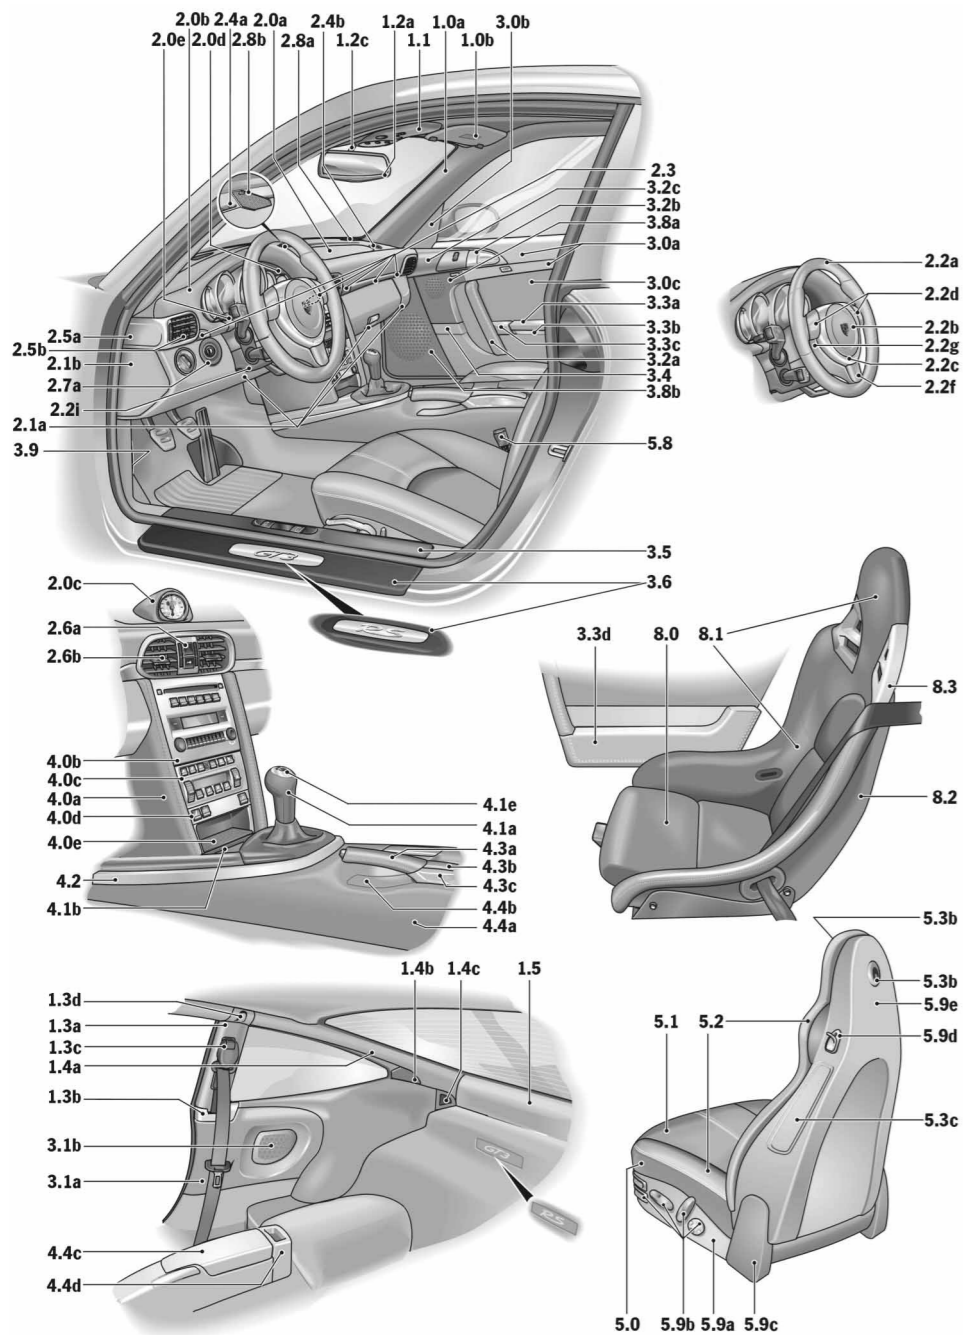

As you will discover, if it's technically feasible, anything is possible for your Porsche.

For more information on Porsche Exclusive, please consult your Porsche Centre.

Porsche Car Configurator

When designing your new 911 GT3 model, try using the **Porsche Car Configurator** at www.porsche.co.uk

This online tool enables you to add and remove options, view them on the car and calculate the final price. You can also find out more about the range of finance options available.

Factory collection	900			<p>What better way to experience the first moments with your new Porsche than at the home of Porsche engineering.</p> <p>Over 50 years ago, the first production Porsche was created by hand in the modest surroundings in Zuffenhausen. From those humble beginnings, the factory has evolved into one of the most advanced production facilities in the world.</p> <p>Including overnight accommodation in a four-star hotel in Stuttgart, your visit will include a tour of the Porsche production line as well as an opportunity to study over 50 years of sports car history in the museum.</p> <p>Your 911 GT3 model will be handed over to you by an English speaking representative from the factory who will help you to familiarise yourself with your new Porsche, ready for the homeward journey.</p> <p>Full details of the programme can be obtained from your Porsche Centre or alternatively by calling the Porsche Information Centre on 08457 911 911.</p>	£960.00 £817.02

Equipment accessories (only available from Porsche Centres)

Below you will find a small selection of Porsche accessories from the Equipment 911 catalogue.

Please note that Equipment products are only available from your Porsche Centre and cannot be ordered as factory-fitted options.

This also applies if you choose to collect your car in person from the Porsche factory.

The latest Equipment 911 catalogue is available now from your Porsche Centre.

Picture	Product name and part number	Page*	Description	Total fitted price £ Incl. VAT Excl. VAT
