**Your inner drive  
has finally met its match.**

## **911 GTS concept.**

The voice in our head that spurs us on. The ambition to give our all. The insatiable hunger for more. It is precisely this inner drive that dwells within the 911 GTS models.

GTS. Three letters that first sparked waves of excitement back in 1963 with the 904 GTS. Three letters that have since been uniting race track performance with incredible sportiness in everyday driving on the road. Three letters that, with the 911 GTS models, represent an athletic boost of 22kW (30hp) and 50Nm by comparison with the 911 Carrera S models.

And a great deal more in terms of sharpness of design, equipment specification and driving dynamics.

GTS. A sports car concept for all those who regard superlative standards as a reason for being – because, quite simply, nothing less would do.

The 911 GTS models.

---

For fuel consumption, CO<sub>2</sub> emissions and efficiency class, please refer to page 118 onwards.

**Eight good reasons  
to set your goals that little bit higher.**

## Highlights.

### **Powerful twin-turbo flat-six boxer engines.**

With a mighty 331kW (450hp) and 550Nm torque, sporty, high engine speeds and lower fuel consumption by comparison with their predecessor.

### **Sportiness intensified.**

Sport Chrono Package with mode switch on the GT sports steering wheel for four driving modes – plus SPORT Response button for maximum responsiveness.

### **Driving dynamics optimised.**

20-inch 911 Turbo S wheels in black with central locking, Porsche Torque Vectoring Plus (PTV Plus), Coupé models with PASM sports suspension, ride height lowered by 20mm for an even more direct driving feel. Optional: rear-axle steering for increased driving stability and agility.

### **Sharpened design.**

SportDesign front apron, SportDesign exterior mirrors and wide rear end. Main headlights with four-point LED daytime running lights and three-dimensional tinted taillights. The Targa bar has a black painted finish. In the interior: Alcantara® and trim strips in black anodised aluminium.

### **Resonant sports car sound.**

Turning every single hp into an audible experience: the sports exhaust system with centrally positioned tailpipes in black (high-gloss).

### **Optimum traction.**

Upgraded Porsche Traction Management (PTM) on the all-wheel drive models ensures excellent roadholding and optimum acceleration – even in the rain and snow.

### **Powerful braking performance.**

High engine power demands outstanding braking power – a requirement fulfilled by brake discs with a diameter of 350mm at the front and 330mm at the rear.

### **Comprehensive infotainment.**

Always on-board: innovative Porsche Communication Management (PCM), Connect Plus, Apple® CarPlay, LTE communication module, wireless Internet access, Porsche Car Connect, Porsche Connect services and Porsche Track Precision app.

For fuel consumption, CO<sub>2</sub> emissions and efficiency class, please refer to page 118 onwards.

**Design**

**When willpower  
becomes a design signature.**

## **Exterior.**

It's our firm belief: you've got to stand by your convictions. That's why, with the 911 GTS models and their sharpened design and contrasts in black, we've cut straight to the point: supreme excellence begins well before the road.

The front end is imposing. That's down to the clear and, above all, functional use of form. Large air intakes increase the supply of air and underline the sportiness of each GTS model.

The lighting concept sets standards. Bi-Xenon main headlights including Porsche Dynamic Light System (PDLS) impress with characterful four-point LED daytime running lights.

The centre-lock wheels are the essence of pure motorsport. Painted in satin black, the 20-inch 911 Turbo S wheels boast outstanding roadholding and track performance thanks to their remarkable width. 20-inch Carrera S wheels with a 10-spoke design are available on request.

The rear end is even more muscular. It is 44mm wider than on the 911 Carrera S – a tangible plus for dynamic performance through every corner.

An eye-catching feature: the accent trim between the tinted taillights on the 911 Carrera GTS models with rear-wheel drive. It is finished in black, just like the centrally positioned twin tailpipes of the standard sports exhaust system.

Reserved for the all-wheel drive models: the seamless LED light strip. For powerful illumination. And an unmistakable design.

In short, every last detail has been harmoniously coordinated. For impressive performance. For an expressive appearance. For a sports car worthy of the GTS name.

You don't become a style icon by following every new fashion. You do it by setting trends that stand the test of time. It's a maxim that the 911 Targa has endorsed since the very beginning. A maxim to which we could add only one thing: the unbridled sportiness of a GTS.

With the 911 Targa 4 GTS, form and function are essentially synonymous. It's evident from the highly distinctive front to the prominently broad rear. And, not least, from the Targa roof. It opens and closes fully automatically in just 20 seconds.

On the 911 Targa 4 GTS, the legendary Targa roll bar is finished in black. Also in black: the 'targa' logo underneath the gills.

In summary, the 911 Targa 4 GTS has gained in style and sharpness. And it has edged even nearer to one thing in particular: itself.

**Some things are simply meant to be taken into your own hands.**

## **Interior.**

What's the use of inner drive without a clear objective? It's all the more important to have an interior that lets you concentrate on the essentials. By giving you quick access to all the information you need while you're driving.

A particularly sporty interpretation of this idea is the mode switch with SPORT Response button on the GT sports steering wheel, which enables you to choose from four driving modes. Then there's the clear arrangement of the five round instruments and the intuitive way of operating Porsche Communication Management (PCM), including online navigation via the multi-touch screen or voice control.

The materials are exquisite and sporty in equal measure. The first indication of this is the model logo in black on the door sill guard.

Another is the use of race track-proven Alcantara®. Particularly easy to grip, it lines the steering wheel rim and the gear selector. And it is also found on the door pulls, the armrest on the door panels, the lid of the centre console storage compartment and – in the Coupé models – on the roof lining. The seat centres are also upholstered in Alcantara®. The headrests are additionally embroidered with the 'GTS' logo. The rear seats? Coupé owners decide whether they stay or go.

**GTS interior package.**

Anything can be enhanced. Even things that are already top class. Proof: the optional GTS interior package, designed to add sporty contrasts.

The optional leather interior with extensive items in Alcantara® includes accents in the contrasting colour of Carmine Red or silver. The 'GTS' logos on the headrests are embroidered in the chosen contrasting colour. As are various decorative seams and the 'PORSCHE' logo on the floor mats. The seat belts and instrument dial of the rev counter are also finished in the contrasting colour.

And it gets sportier still: with carbon. This particularly lightweight material is used on the dashboard trim strips and doors, as well as on the centre console. A touch of motorsport authenticity.

The GTS interior package lends the 911 GTS models even greater functional and visual individuality. For your very own interpretation of sport. And your very own GTS.

**Performance**

**We've taken the liberty of fuelling your inner drive with 450hp.**

**Drive.**

**Engine.** Twin-turbo. That's how we answer your demand for performance. With maximum torque – even at low engine speeds. Supplemented by the characteristically high engine speeds of a 911. And, in the case of the GTS models, an extra 22kW (30hp) compared with the 911 S models.

This increase in power is thanks to the twin-turbo six-cylinder horizontally opposed engines with direct fuel injection (DFI) and VarioCam Plus. They develop an impressive 331kW (450hp) at 6,500rpm.

The maximum torque of 550Nm is available across an astonishingly wide torque plateau from 2,150 to 5,000rpm.

To reduce particulate emissions, all models feature a particulate filter, therefore meeting the Euro 6d-TEMP emissions standard. The necessary regeneration process of the particulate filter runs independently and unnoticed.

With Launch Control activated, the 911 Carrera GTS sprints from 0 to 100km/h in only 3.7 seconds. Top speed is 310km/h.

Another burst of adrenaline is triggered by the legendary sound of the horizontally opposed engine. With the SPORT or SPORT PLUS button selected, it's enough to raise goose bumps even when the engine's idling.

For fuel consumption, CO<sub>2</sub> emissions and efficiency class, please refer to page 118 onwards.

**Turbochargers.**

The drive system of the 911 GTS models is a twin-turbo configuration. It has two turbochargers with charge-air cooling, one for each cylinder bank. Both exhaust gas turbos have been optimally adapted to the displacement and power output of the engine. This design minimises the inertia of the drivetrain and, in conjunction with rapid regulation of boost pressure, helps to provide spontaneous responsiveness. These turbochargers leave the sceptics in their wake and find a new destination: unexplored levels of torque and a performance that hits the driver in an instant. In the form of direct acceleration, visceral forward thrust and another additional boost – to your adrenal system.

**Sports exhaust system.**

With the sports exhaust system, the 911 GTS models also set new standards for sound. Two catalytic converters and a rear silencer lead into two centrally positioned tailpipes with a black (high-gloss) finish. For a look otherwise more likely to be seen on the race track. For impressive resonance and an intense sports car sound – typical of the 911. For 100% Porsche. And for goose bumps at the push of a button.

**For all those who are continuously stepping up a gear.**

## **Transmission.**

### **Porsche Doppelkupplung (PDK).**

A piece of Le Mans and part of Porsche Motorsport history: the optimised 7-speed Porsche Doppelkupplung (PDK) features both manual and automatic modes.

Pure motorsport feel: in manual mode, the shift direction simulates that of race cars – back to shift up, forwards to shift down.

The incredibly sporty action is further intensified by extremely fast gear changes. In milliseconds and with no interruption to the flow of power. With the added bonus of even faster acceleration performance and a further reduction in fuel consumption.

---

For fuel consumption, CO<sub>2</sub> emissions and efficiency class, please refer to page 118 onwards.

**When you've got plans,  
don't let anything stand in your way.**

**Not even the weather.**

**Porsche Traction Management (PTM).**

The all-wheel drive 911 GTS models combine high power output with optimum transmission of torque. Porsche Traction Management (PTM), the active all-wheel drive system, helps to ensure that the distribution of drive force is adapted to all kinds of road and weather conditions.

The electronically controlled and fully variable multi-plate clutch distributes drive force between the permanently driven rear axle and the front axle even faster and more precisely than ever before.

Sensors continuously control the speed of all four wheels and the longitudinal and lateral acceleration of the car, as well as the steering angle.

In this way, PTM, working in conjunction with Porsche Stability Management (PSM), provides better-than-average traction and therefore excellent pulling power – particularly at the limits of sporty performance.

**You consistently follow your own line.  
Even in the corners.**

## **Chassis.**

### **Porsche Active Suspension Management (PASM) and PASM sports suspension.**

PASM, the electronic damping control system, continuously adjusts the damping force on each wheel, based on current road conditions and driving style. In addition, the body sits 10mm lower.

Not only does this help to reduce lift at the front axle, it also acts to increase downforce at the rear axle. Improved aerodynamics represent another boost for performance – combined with a high level of comfort.

The 911 GTS Coupé models are equipped with the PASM sports suspension. The ride height has therefore been lowered by a further 10mm. The springs are harder and shorter, and the anti-roll bars on the front and rear axles are stiffer. The front spoiler lip is larger, and the rear spoiler extends even further.

**Rear-axle steering.**

Rear-axle steering is available for the 911 GTS models on request to provide even greater performance and everyday practicality.

The advantage for day-to-day driving: during low-speed manoeuvres, the system steers the rear wheels in the opposite direction to that of the front wheels. This reduces the turning circle and makes parking noticeably easier to manage.

The advantage for sporty driving: during high-speed manoeuvres, the system steers the rear wheels in the same direction as that of the front wheels. This increases driving stability and agility – for maximum driving performance.

**Porsche Dynamic Chassis Control (PDCC).**

PDCC – optional for the 911 GTS models in conjunction with rear-axle steering – is an active roll stabilisation system that suppresses the vehicle's lateral body movement during cornering manoeuvres. In addition, it minimises its lateral instability on uneven ground.

The results are improved dynamic performance, even more neutral handling and increased ride comfort – whatever the speed.

In simple terms, the tyres and vehicle hold the road better and you can steer through corners faster and in a more relaxed manner. Which is why PDCC sets standards for driving performance, ride comfort – and driving pleasure.

**Sport Chrono Package.**

The Sport Chrono Package enables an even sportier tuning of the chassis, engine and transmission – and launches you to unprecedented sporty heights.

The key component is the mode switch on the steering wheel, derived from the 918 Spyder. Without your hand having to leave the steering wheel, you can choose any of four settings: Normal, SPORT, SPORT PLUS and Individual. In this way, you can adapt the vehicle even more to the way you want to drive.

The Launch Control function enables the best possible standing start. You can also select the motorsport-derived gearshift strategy. In this mode, PDK is geared up for extremely short shift times and optimum shift points for maximum acceleration. When using the SPORT Response function, pressing the button in the centre of the mode switch primes the engine and transmission for the fastest possible unleashing of power. In other words, maximum responsiveness – for a period of 20 seconds. A timer graphic in the instrument cluster tells you how long is left.

1 Mode switch

Dynamic engine mounts are also part of the Sport Chrono Package. The electronically controlled system minimises perceptible oscillations and vibrations of the entire drivetrain, particularly the engine, and combines the benefits of both a hard and soft engine mounting arrangement. In short, it enhances both driving stability and comfort.

The Sport Chrono Package also includes the Porsche Track Precision app. This enables you to clock lap times and collate driving stats, record and manage the results on your smartphone and share them with other drivers for comparison. The app makes use of GPS and high-precision data from the on-board computer, helping you to enhance your driving performance. Graphical and video analyses display every millisecond of your improvement potential. Lap after lap.

**Porsche Stability Management Sport (PSM Sport).**

Porsche Stability Management (PSM) automatically maintains stability even at the limits of dynamic driving performance. In the 911 GTS models, the upgraded version of PSM is supplemented by a 'Sport' mode. It allows a significantly more sporty driving style, with PSM remaining active in the background. To further enhance your driving experience.

**Porsche Torque Vectoring Plus (PTV Plus).**

This system enhances vehicle dynamics and stability by applying brake pressure to the rear wheels, in conjunction with a rear differential lock.

When the car is driven assertively into a corner, moderate brake pressure is applied to the inside rear wheel. This induces an additional rotational pulse (yaw movement) around the vehicle's vertical axis, which results in a direct, sporty steering action from the turn-in point.

The rear differential lock is regulated electronically, offering fully variable torque distribution. In conjunction with Porsche Stability Management (PSM), the system provides better traction and greater driving stability, even on road surfaces with varying grip, as well as in the rain and snow.

**Front-axle lift system.**

Particularly practical: the lift system, available as an option for your 911 GTS, raises the front end by approximately 40mm – and keeps it there up to a speed of around 35km/h. With this system, kerbs, ramps and car park entrances are a sporting challenge of the past.

**In case your inner drive ever demands restraint.**

## **Safety.**

### **Brakes.**

The front axle is equipped with red six-piston aluminium monobloc fixed brake calipers and four-piston equivalents are fitted at the rear. The brake disc diameters have been sized to match the increased power output of the engine: 350mm at the front and 330mm at the rear. For excellent stability and outstanding braking performance.

**Porsche Ceramic Composite Brake (PCCB).**

Proven in motorsport, Porsche Ceramic Composite Brake (PCCB) is available as an option. On the 911 GTS models, the cross-drilled ceramic brake discs of PCCB have a diameter of 410mm at the front and 390mm at the rear – for even more formidable braking performance.

Originating from the 911 Turbo S, PCCB features six-piston aluminium monobloc fixed brake calipers on the front axle and four-piston units at the rear – all painted in yellow – to provide braking forces that are considerably more powerful and above all exceptionally consistent.

PCCB enables shorter braking distances in even the toughest conditions. Safety under high-speed braking is also improved thanks to its excellent fade resistance.

Another advantage of PCCB is the extremely low weight of the ceramic brake discs, which are approximately 50% lighter than standard discs of a similar design and size. This results in better roadholding and increased comfort, particularly on uneven roads, as well as greater agility and a further improvement in handling.

**Not all great events  
are foreshadowed.**

## **Light systems.**

### **Bi-Xenon main headlights including Porsche Dynamic Light System (PDLS).**

Fitted as standard, Bi-Xenon main headlights feature dynamic range control, a headlight cleaning system and dynamic cornering lights. The main headlights are swivelled towards the inside of a bend, based on steering angle and road speed.

Not only do they offer excellent visibility, they also optimise appearance. Four-point LED daytime running lights are integrated into each headlight. The LED brake lights also have a four-spot design. Together with the tinted three-dimensional taillights, they're set to be one of the distinctive hallmarks of the 911 GTS model range.

### **LED main headlights in black including Porsche Dynamic Light System Plus (PDLS Plus).**

Superior safety meets sporty design in the form of optional LED main headlights in black including PDLS Plus. In addition to being efficient and long-lasting, LED technology also creates a light very similar to daylight and thus helps to reduce driver fatigue.

One special feature of PDLS Plus is the dynamic main beam function. A camera detects the lights of vehicles ahead as well as those of oncoming traffic. Based on the data from the camera, the dynamic main beam function then adapts the headlight range accordingly. This continuous, seamless control means that you are able to see the course of the road, pedestrians and potential hazards earlier without hindering other road users.

**Comfort and  
infotainment**

**Comfort need never mean a resting pulse.**

## **Comfort.**

The 911 GTS models have everything you need behind the wheel: excellent ergonomics, precise data and sporty comfort. For the perfect lap. Day in, day out.

### **Instruments.**

Sporty not kitschy, practical not fanciful. The five round instruments have one purpose above all: to provide information. They do so efficiently and accurately with a styling that you would expect from Porsche, and a rev counter that's right in the middle. With the 'GTS' logo on the dial. The instrument cluster with high-resolution 4.6" colour screen delivers a continuous stream of data from the on-board computer.

### **GT sports steering wheel.**

In the 911 GTS models, the GT sports steering wheel has a reduced diameter and is lined with non-slip Alcantara® for ultra sporty handling. It has two gearshift paddles made from a solid light alloy. The spokes are finished in black and the silver-coloured inlays have been screw-fastened. Always readily to hand: the mode switch and SPORT Response button.

#### **Sports seats Plus.**

Fitted as standard: Sports seats Plus, in leather with seat centres in Alcantara®. They offer electric seat height and backrest adjustment, as well as manual fore/aft adjustment. The side bolsters on the seat squab and backrest have a firm, sporty padding and provide outstanding lateral support. The new seam pattern and the 'GTS' logo embroidered on the headrests are distinctive details.

Adaptive Sports seats Plus in leather are available on request. Featuring 18-way electric adjustment of seat positions, including side bolsters, they also come with a comprehensive memory function and electric steering column adjustment.

#### **Sports bucket seats.<sup>1)</sup>**

A racing-style option: Sports bucket seats featuring a folding backrest, integral thorax airbag and manual fore/aft adjustment. The seat shells are made from glass- and carbon-fibre reinforced plastic with a carbon surface finish.

<sup>1)</sup> Child seats are not compatible with Sports bucket seats.

**Get more day out of  
your everyday.**

## **Porsche Connect.**

Porsche Connect enhances existing vehicle functions with intelligent services and apps – all of which are intended to make the connection between car and driver even more intimate, to intensify that Porsche fascination, and to make the challenges of everyday life quick and easy to overcome.

### **Porsche Communication Management (PCM) including online navigation.**

PCM is your control centre for audio, navigation and communication functions. In its latest generation with mobile phone preparation, audio interfaces and voice control system, it also features a high-resolution 7" touchscreen display, enabling easy control of the majority of in-car functions.

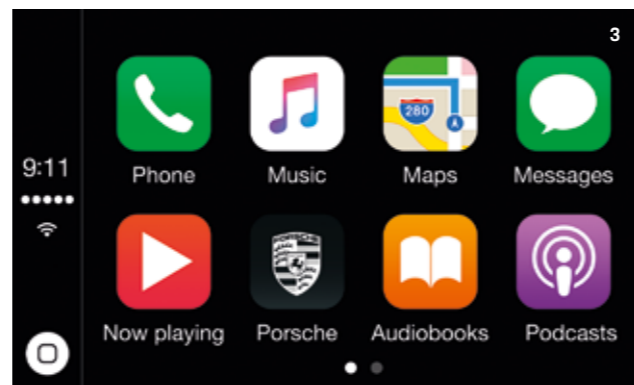

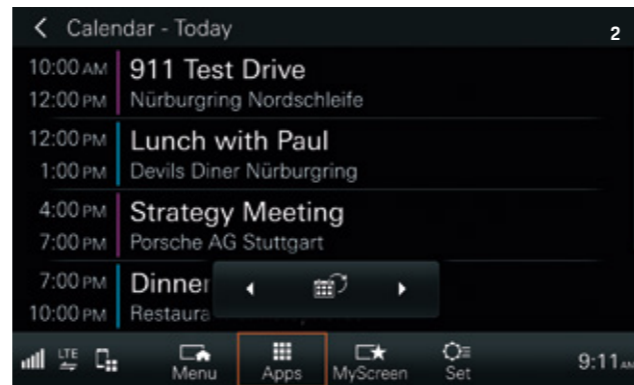

On the move, you can enjoy your favourite music from a variety of sources, including CD/DVD drive, SD cards, internal 10GB hard drive (jukebox) or the USB connection, for connecting your iPhone®, for example. Or you can simply listen to the radio.

### **Connect Plus.**

The Connect Plus module implements connectivity in your Porsche, as it allows you to optimally integrate your smartphone into your vehicle.

A smartphone compartment in the centre console transfers your mobile phone signal to the external aerial of the car – conserving phone charge and providing optimum reception. Another feature is the LTE communication module with SIM card reader for ease of use and optimised voice quality. What's more, the Connect Plus module also lets you use our wide range of Porsche Connect services.

Get more day out of your everyday and delegate the multitasking to your 911 GTS model – so you can spend more time driving your Porsche.

### Porsche Connect services.<sup>1)</sup>

Connect Plus gives you access to a range of helpful services, which are bundled into several dedicated packages. These include, for example, Real-time Traffic Information. This aid ensures that you're on the fastest route to your destination even before you set off. Throughout the journey, Real-time Traffic Information is regularly updated – keeping you on the optimum route. To allow you to use Porsche Connect services, the car comes with an integrated LTE-enabled SIM card including data allowance. You no longer need to provide your own SIM card. For use of the WiFi hotspot and music streaming functions, a WiFi data package is available from the Porsche Connect Store. Of course, you can still use your own SIM card if you prefer. Please bear in mind that this will require a valid subscription to a mobile network provider of your choice (subject to charge).

### Connect apps.

In addition to its range of smart services, Porsche Connect also offers two smartphone apps. The first, the Porsche Car Connect app, lets you use your smartphone or Apple Watch® to retrieve vehicle data and remotely control selected vehicle functions. Another feature of Porsche Car Connect is the Porsche Vehicle Tracking System (PVTS) including theft detection.

The second app is the Porsche Connect app. This allows you to send destinations to your Porsche before you start your journey. As soon as your

smartphone has connected to PCM, you will be able to display these in the vehicle and start route guidance directly. Even your smartphone calendar can be viewed directly on PCM and stored addresses used for navigation. What's more, the Porsche Connect app gives you access to millions of music tracks thanks to its built-in music streaming function.

Go to [www.porsche.com/connect](http://www.porsche.com/connect) to learn more about the apps and services available.

- 1 App POIs
- 2 Calendar
- 3 Apple® CarPlay

<sup>1)</sup> Porsche Connect services include an initial free subscription period, the length of which may vary by services package and country but shall not be less than three months. The full range of Porsche Connect services or individual services thereof may not be available in some countries. In addition, an integrated SIM card with data allowance for use of selected Porsche Connect services will be included in the price in some countries. For use of the WiFi hotspot and the other non-included Porsche Connect services, e.g. music streaming, via integrated SIM card in these countries, a chargeable WiFi data package is also available from the Porsche Connect Store. Alternatively, you can establish a data connection using a SIM card of your own. For further information on free subscription periods, follow-on costs and availability of individual services in your country, please visit [www.porsche.com/connect](http://www.porsche.com/connect) or consult your Porsche Centre.

#### **Apple® CarPlay.**

Apple® CarPlay enables you to connect your iPhone® to your Porsche and have some of your apps shown directly on the central display screen of Porsche Communication Management (PCM). With Siri® voice recognition interface, you can conveniently use your apps on the move while fully concentrating on the road.

#### **My Porsche.**

Every Porsche can be configured to your preference. Porsche Connect is the same. With My Porsche – at [www.porsche.com/myporsche](http://www.porsche.com/myporsche) – you can manage your 911 GTS and personalise services to suit your interests. For example, you can add new destinations for your navigation system or select the news sources to keep you informed on every journey. My Porsche also lets you create additional users at any time – such as family members or friends.

#### **Porsche Connect Store.**

Would you like to continue to enjoy your existing services beyond the initial free subscription period? Or purchase extra Porsche Connect services? Visit the Porsche Connect Store at [www.porsche.com/connect-store](http://www.porsche.com/connect-store) and discover more about what Porsche Connect has to offer.

Let the music play,  
wherever you are.

## Sound systems.

### Sound Package Plus.

Sound Package Plus, with eight loudspeakers and a total output of 150 watts delivers excellent sound. The amplifier integrated into Porsche Communication Management (PCM) optimally adapts the acoustic pattern in the vehicle interior to the driver and front passenger.

### BOSE® Surround Sound System.

The optional BOSE® Surround Sound system has been specially developed for the 911 models and is optimally tuned to the specific interior acoustics of these particular vehicles.

The audio system features 12 fully active loudspeakers and amplifier channels including a patented 100 watt active subwoofer integral to the

vehicle bodyshell. This fully active system setup enables each individual loudspeaker to be optimally adapted to the vehicle interior and transforms your 911 GT3 into a fast-moving concert hall. Total output: 555 watts.

### Burmester® High-End Surround Sound System.

The road is perhaps the one place in the world where you can still listen to music without disturbance. Reason enough, then, to upgrade your enjoyment the Porsche way – together with the most important handcrafters of premium-quality sound systems.

The result is a sound performance of the highest level, specially matched to your 911 GT3. The system has 12 amplifier channels with a total output of 821 watts, 12 loudspeakers including an active subwoofer with 300 watt class D amplifier, a total diaphragm surface area of more than 1,340cm<sup>2</sup>, and a frequency response of 35Hz to 20kHz.

The Burmester® system uses the patented integral subwoofer, which replaces the familiar separate subwoofer and loudspeaker arrangement of other systems. All loudspeaker housings are perfectly matched and deliver a natural and richly textured spatial sound, even at top volume.

1 Burmester® High-End Surround Sound System

**Not a sports car for everyone.  
But a sports car for every day.**

### **Summary.**

A design that demonstrates sportiness in every fibre. A chassis equipped for any challenge. And a twin-turbo horizontally opposed engine that brings race track performance to the road.

Driven for more.  
The 911 GTS models.

**Personalisation**

**We believe in passion for the sports car.  
And for every detail.**

## **Personalisation.**

Just imagine if everything were possible. If you could create the sports car of your dreams. Without restriction. With a diverse range of colours and materials. With extra personality and performance. Like Ferry Porsche did all that time ago with the first ever Porsche: the 356 No. 1.

On the pages that follow, we will show you how a dream car becomes a reality. For a clear overview, all available options have been organised by category. With the extensive colour palette and wide range of optional equipment, you can lend personality to your 911. Let the following pages fill you with inspiration – and let your creativity run wild.

The possibilities are many. The limits are few and far between. At Porsche Exclusive Manufaktur you can have your 911 personalised even more comprehensively and entirely the way you envisaged. Directly on the shop floor. To the ultimate level. And for the most part by hand.

You can find out more about the ultimate form of personalisation on the following pages. By the way, we've taken special care to point out all the personalisation options available from Porsche Exclusive Manufaktur. You'll be amazed at what we can do.

**Your inspiration. Our passion.**

## **Porsche Exclusive Manufaktur.**

Our wealth of experience goes back a long way. Since the very beginning, we at Porsche have been dedicated to realising customer wishes as part of our special request service. Known until 1986 as the Porsche 'Sonderwunschprogramm', then as 'Porsche Exclusive', today we call it 'Porsche Exclusive Manufaktur'.

We love what we do. We love our work. Every seam, every square inch of leather, and every single other fine detail receives the same devotion. We transfer our experience and passion to the car together with your inspiration – that's how we bring dreams to life. Directly from the Manufaktur.

None of this would be possible without originality, enthusiasm and attention to detail, beginning as early as the personal consultation stage. That's because we always keep one thing in mind: fulfilling your individual wishes and requirements, thus turning 'a Porsche' into 'your Porsche'.

How do we fulfil these wishes? With composure and meticulous care, by means of precision handcrafting and the use of exquisite materials such as leather, Alcantara®, carbon or aluminium, creating a product from dedication and craftsmanship. In other words, we handcraft a product that blends sporty performance, comfort and style and reflects your own personal taste. A Porsche with your signature touch.

We offer a wide range of personalisation options, with visual and technical enhancements for the interior and exterior, from a single alteration to extensive modifications. Because your inspiration is our passion.

Be inspired by our examples showcased on the following pages and visit [www.porsche.com/exclusive-manufaktur](http://www.porsche.com/exclusive-manufaktur) to discover everything you need to know about how to configure one of your very own.

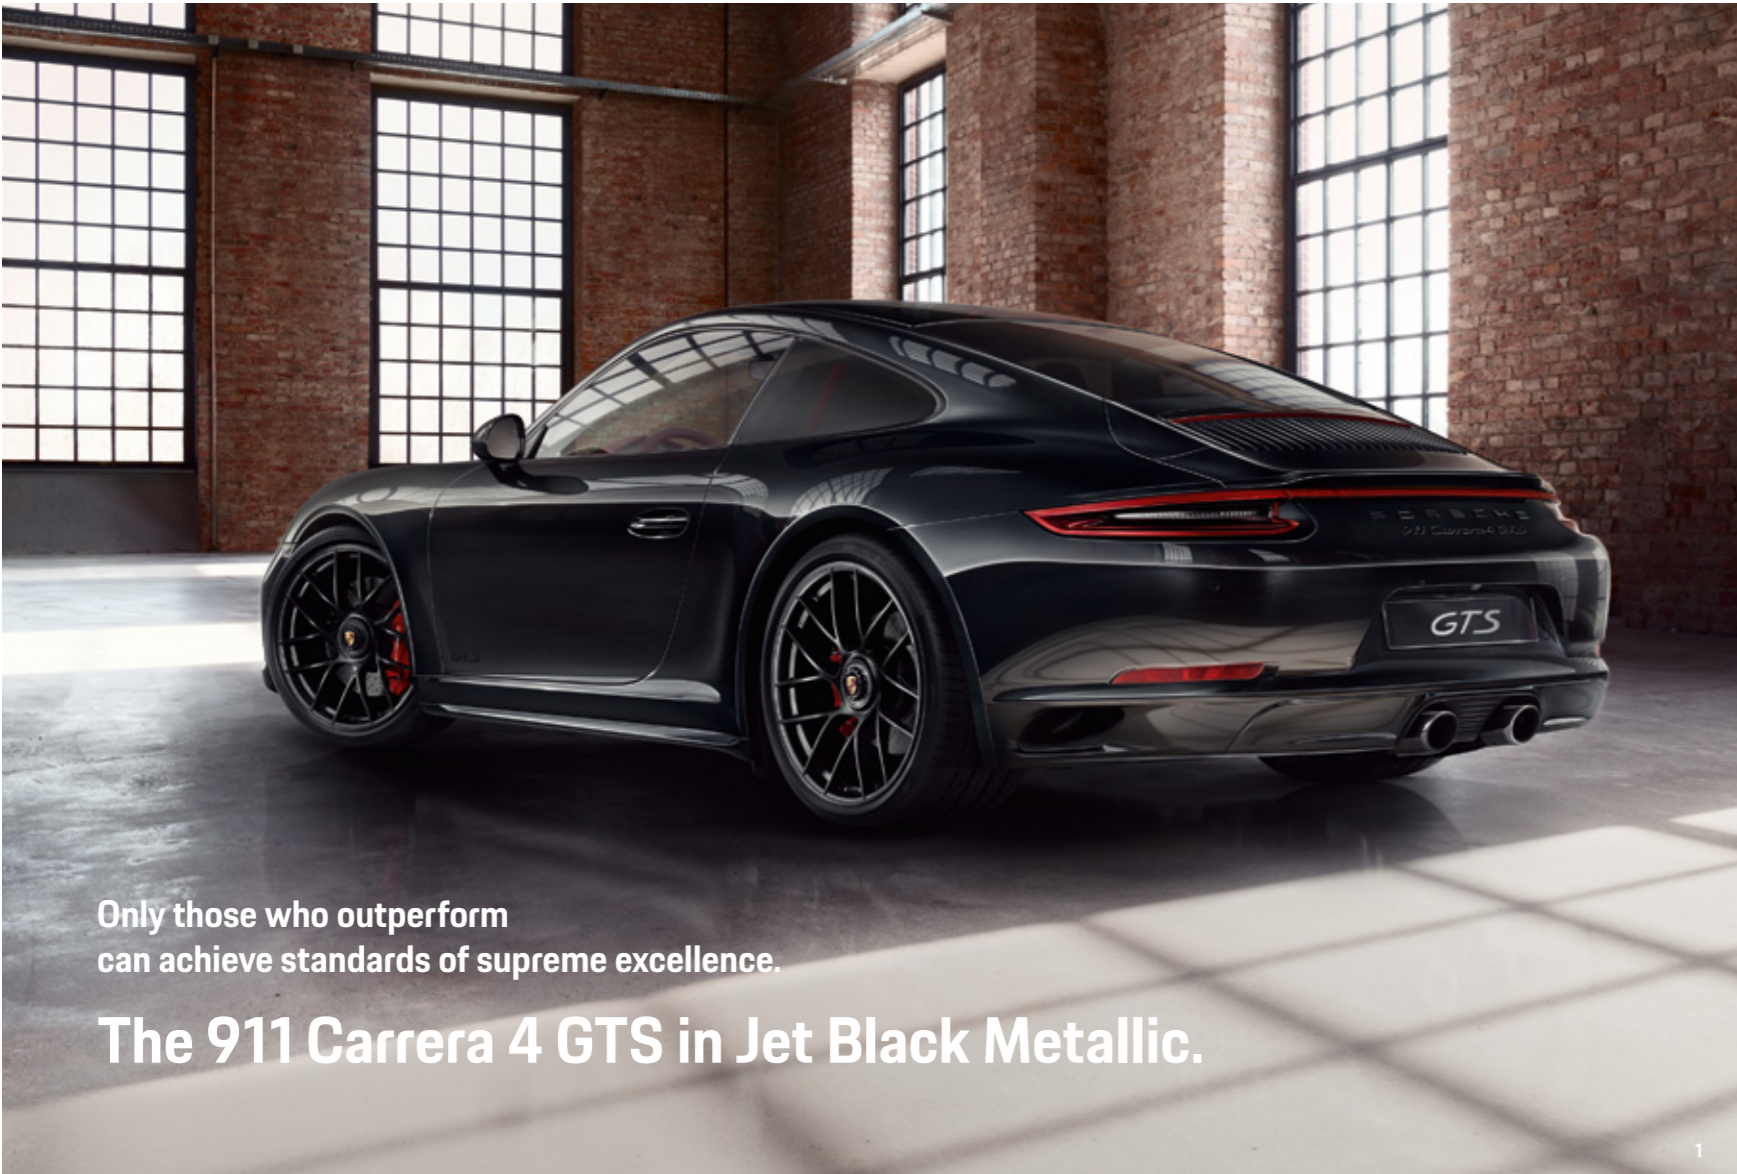

## A configuration example from Porsche Exclusive Manufaktur.

- 1 SportDesign package, 'PORSCHE' logo and model designation painted, air intake slats in rear lid painted, rear apron painted
- 2 20-inch Carrera S wheels painted in satin black
- 3 Sport Chrono stopwatch instrument dial in white
- 4 SportDesign package, LED main headlights in black including Porsche Dynamic Light System Plus (PDLS Plus), 20-inch Carrera S wheels painted in satin black, SportDesign exterior mirror upper trims and window triangle trims in carbon
- 5 Extended interior package with decorative stitching and leather seat centres in Crayon, seat belts in Miami Blue, transmission tunnel in front in leather, carbon interior package, personalised floor mats in carbon with leather edging, instrument dials in white

Personal style cannot be replicated.

The 911 Targa 4 GTS in Miami Blue.

Only those who outperform  
can achieve standards of supreme excellence.

The 911 Carrera 4 GTS in Jet Black Metallic.

Carbon interior package

Porsche Exclusive Manufaktur

**Creative freedom from Porsche Exclusive Manufaktur:**

**Interior trim packages with decorative stitching and seat centres in leather in contrasting colour.**

Do you want even more creative freedom when it comes to styling the interior of your car? The interior trim packages with decorative stitching and seat centres in leather in a contrasting colour from Porsche Exclusive Manufaktur make it possible to style your 911 entirely to your own personal preference and add some interior accents of your own. These packages are available in all standard colours. Whether they are specified individually or in combination – the result will always be a visually harmonious whole, making your 911 one thing above all else: one of a kind. Just like you.

Be inspired by our colour combinations showcased here. Or visit [www.porsche.com](http://www.porsche.com) and try out our Porsche Car Configurator.

## Accessories developed for 365 days full of life.

### Porsche Tequipment.

Porsche Tequipment accessories developed specifically for your 911 allow you to configure your car entirely to your own preference. From the start, the same rules that apply to our vehicles also apply to Porsche Tequipment products: developed, tested and proven at the Development Centre in Weissach. By the same Porsche engineers and designers who made your car. Designed with the complete vehicle in mind and precisely tailored to your Porsche.

And your original car warranty? It will remain completely intact, whichever Tequipment products you ask your Porsche Centre to fit.

To discover more about Porsche Tequipment, please consult your Porsche Centre. Alternatively, visit our website at [www.porsche.com/tequipment](http://www.porsche.com/tequipment) or scan the QR code to access our Tequipment Accessories Finder, where you can view all the products in detail.

#### 1 Roof boxes

Lockable plastic boxes in a black (high-gloss) or platinum look, with a capacity of approximately 320 or 520 litres.

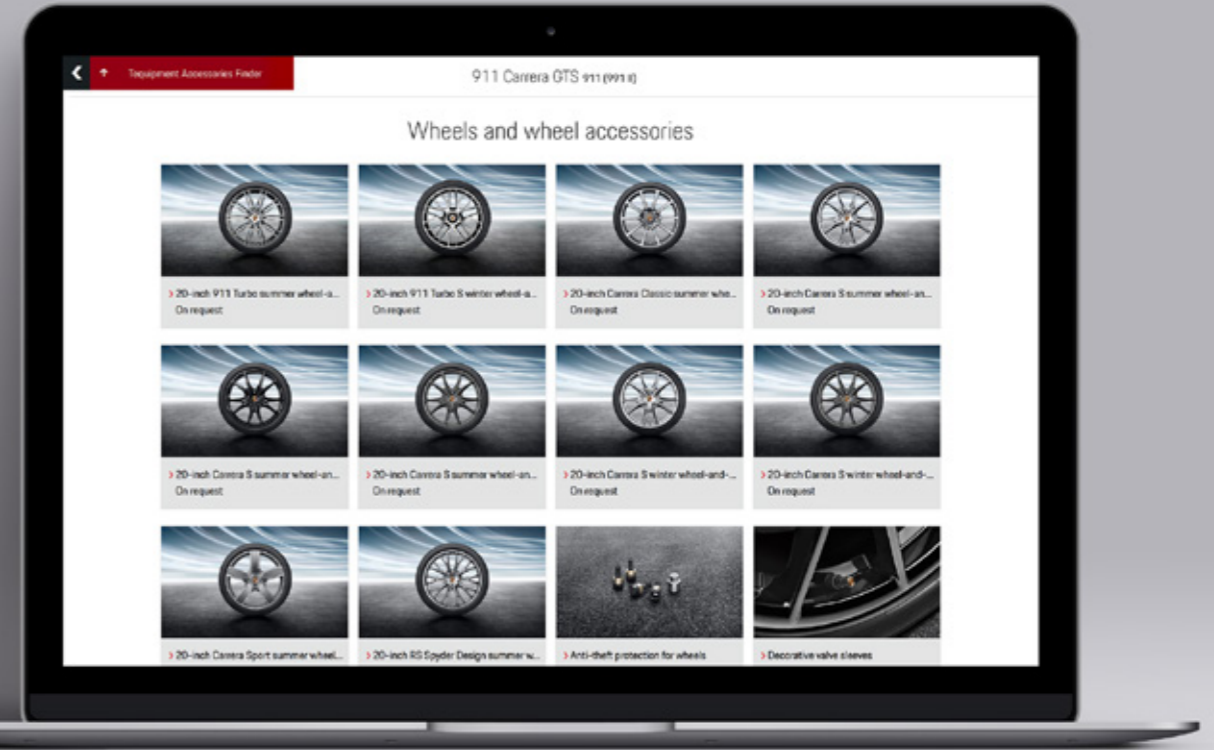

#### 2 Car Care Sets

A range of interior and exterior care products optimally tailored to your Porsche.

#### 3 Wheels with summer tyres

For enhanced individuality, agility and safety. And even greater driving pleasure.

#### 4 Tequipment Accessories Finder

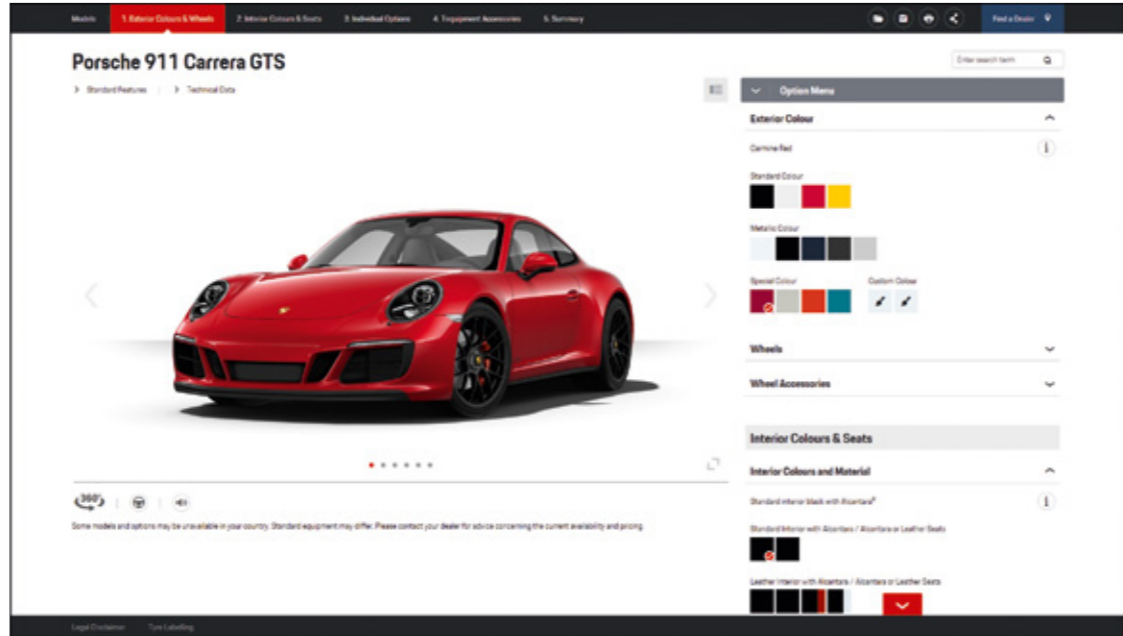

## Porsche Car Configurator.

The dream of the 911 comes in many shapes and colours. With the Porsche Car Configurator, you will see quickly and intuitively which design for your chosen 911 model suits you the best.

On the way to realising your dream car, you can now create your own personalised configuration not only on your desktop and tablet, but also on your smartphone. Your car can be displayed in the perspectives of your choice and with 3D animations. Tailored recommendations along the way help you to make those all-important decisions.

Visit [www.porsche.com](http://www.porsche.com) to find the Porsche Car Configurator and discover much more about the fascination of Porsche.

## Designing your Porsche.

### Consultation.

At your Porsche Centre, we're on hand to answer all your questions about your new Porsche. Of course, the same applies to the personalisation options of Porsche Exclusive Manufaktur.

In our Customer Centres in Stuttgart-Zuffenhausen, Atlanta, Los Angeles, Dubai and Shanghai, we will show you what can be done. Here, you can select your materials and paint colours and plan your vehicle in detail using the Porsche Car Configurator.

### Factory Collection.

Then the anticipation begins – looking forward to the day of delivery. Why not collect your Porsche directly from the factory? Zuffenhausen or Leipzig – both venues hold their own special allure.

In Zuffenhausen, you can experience every aspect of the legendary Porsche brand. In addition to receiving a lowdown on your car in the historic Werk 1, you will also gain an insight into the entire history of Porsche with a visit to the Porsche Museum.

Legendary models from a sports car history spanning seven decades await.

In Leipzig, you're going to take to the starting grid – in a Porsche model similar to the one you purchased. With an experienced instructor always by your side, who will demonstrate all the functions of your new Porsche – and the potential that lies within. On-road on the race track. Or off-road, on our very own off-road track.

Whichever location you choose, your itinerary includes a guided factory

tour, a stylish three-course meal and plenty of lasting memories.

To arrange a date for your Factory Collection experience, please consult your Porsche Centre. There, you will be given all the information about current availability and the formalities, legal or otherwise, that need to be completed before you can take delivery.

Porsche Exclusive Manufaktur consultation

Porsche race track and Customer Centre

## Porsche World.

### Porsche Centres

Your Porsche Centre can assist you with every aspect of purchasing and owning your Porsche. You will also find a wide range of products and services, including genuine Porsche parts and top-quality accessories.

### Porsche Exclusive Manufaktur

At Porsche Exclusive Manufaktur, we make our customers' personal wishes a reality. With custom work. By hand. With care and dedication. To turn something special into something unique. [www.porsche.com/exclusive-manufaktur](http://www.porsche.com/exclusive-manufaktur)

### Porsche Tequipment

Personalise your Porsche at any time after purchase with our range of accessories. You will also find all our available products online at [www.porsche.com/tequipment](http://www.porsche.com/tequipment) using the Tequipment Accessories Finder.

### Porsche Driver's Selection

With leisurewear, model cars, timepieces, leather goods, luggage specifically tailored to Porsche luggage compartments and other intelligent accessories, there are plenty of opportunities to indulge your passion for Porsche off the road, too.

### Porsche Travel Experience

Embark on a thrilling adventure and feel the power of Porsche. Stay in top-class hotels and dine in five-star restaurants – in the most beautiful places on Earth. To find out more, call +49 711 911-23360. E-mail: [travel@porscheexperience.de](mailto:travel@porscheexperience.de)

### Porsche Track Experience

Develop your skill and explore your Porsche with the Porsche Sport Driving School. Learn about events at some of the world's most famous racing venues, call +49 711 911-23364. E-mail: [track@porscheexperience.de](mailto:track@porscheexperience.de)

### Porsche Clubs

Since the first Porsche Club was founded in 1952, their number has grown to 675 with over 200,000 members worldwide. To find out more, go to [www.porsche.com/clubs](http://www.porsche.com/clubs) or call +49 711 911-77578. E-mail: [communitymanagement@porsche.de](mailto:communitymanagement@porsche.de)

### Porsche Service

Your expert partner for all current Porsche models as well as old and modern classics, whether your car needs servicing, routine care or special repairs.

### Porsche Assistance

Enjoy peace of mind with our exclusive breakdown and accident recovery service. Membership is free when you buy a new Porsche.

### Porsche Approved

So that our vehicles remain reliable and retain their value whether new or previously owned, all Porsche Approved cars meet the most stringent Porsche quality standards across the world. Each car is backed by the Porsche Approved warranty.

### Porsche Financial Services

Discover our financial services and realise your dream of the sports car with the solutions we have to offer. Uncomplicated. Individual. Tailored.

### Christophorus

Published five times a year, our magazine for Porsche owners offers news, interviews and a variety of features from the world of Porsche. Visit [www.porsche.com/christophorus-magazine](http://www.porsche.com/christophorus-magazine) where all articles are available to you free of charge.

### Porsche Classic

Your specialist source for genuine Porsche parts as well as restoration services for all Porsche classics. Visit [www.porsche.com/classic](http://www.porsche.com/classic) to find out more.

### Porsche Museum

More than 80 vehicles at our headquarters in Stuttgart-Zuffenhausen await to take you on a journey through Porsche history. See icons such as the 356, 911 and 917 presented in an atmosphere you can't experience anywhere else.

### Porsche Online

Go to [www.porsche.com](http://www.porsche.com) for all the latest news and information from Porsche.

You can obtain the latest brochures/magazines for Porsche Experience, Porsche Driver's Selection and Porsche Tequipment from your Porsche Centre.

Tyre type	Size	Fuel efficiency class/ rolling resistance	Wet grip class	External rolling noise* (class)	External rolling noise (dB)
Summer tyres	245/35 ZR 20	E	B–A		71
	305/30 ZR 20	E	B–A		74–73

For logistical and technical reasons relating to the production process, we are unable to accept orders for a particular make of tyre.  
\*  Quiet rolling noise,  Moderate rolling noise,  Loud rolling noise.

1) Data determined in accordance with the measurement method required by law. Since 01 September 2017 certain new cars have been type approved in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure to measure fuel consumption and CO<sub>2</sub> emissions. From 01 September 2018, the WLTP replaced the New European Driving Cycle (NEDC). Due to the more realistic test conditions, the fuel consumption and CO<sub>2</sub> emission values determined in accordance with the WLTP will, in many cases, be higher than those determined in accordance with the NEDC. This may lead to corresponding changes in vehicle taxation from 01 September 2018. You can find more information on the difference between WLTP and NEDC at [www.porsche.com/wltp](http://www.porsche.com/wltp). Currently, we are still obliged to provide the NEDC values, irrespective of the testing method used. The additional reporting of the WLTP values is voluntary until their obligatory use. As far as new cars, (which are type approved in accordance with the WLTP) are concerned, the NEDC values will therefore be derived from the WLTP values during the transition period. To the extent that NEDC values are given as ranges, these do not relate to a single, individual car and do not constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Extra features and accessories (attachments, tyre formats etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics. Additionally, weather and traffic conditions, as well as individual handling, can affect the fuel consumption, electricity consumption, CO<sub>2</sub> emissions and performance values of a car.

2) Valid in the countries listed only.

3) Weight is calculated in accordance with the relevant EC Directives and is valid for vehicles with standard specification only. Optional equipment increases this figure. The figure given includes 75kg for the driver.
